DANCE

DANCE (741) 125 Lathrop Hall (608)262-1691

Enroll at an appropriate skill level. Many dance courses require vigorous exercise that may be hazardous to the health of certain individuals, especially those with cardio-pulmonary disease and those who have not recently engaged in strenuous exercise. Any costs as the result of injury or illness connected with participation in these courses are solely the responsibility of the student. If you have a handicap which you believe requires accommodation, notify instructor prior to participation in any course activity. Attendance at one-half the 3:30-4:30pm Friday Forums is required of all students enrolled in a majors course.

PHYSICAL EDUC ACTIVITY PROGRAM

PE ACTIV (740) Ronnie Carda, Coordinator, 1011 Gym-Nat, (608)262-1690.

Enroll at an appropriate skill or fitness level. In most cases, 100 level crses are for beginners; 200 level crses are for intermediates & 300 level crses are advanced skill or fitness. Attendance requirement limits absences. Many P.E. courses require vigorous activity which may be contraindicated for certain individuals, especially those with cardiopulmonary disease. Any costs as the result of injury or illness connected with participation in these courses are solely the responsibility of the student. If you have a chronic disorder which you believe requires accommodation, notify instructor prior to participation. When classes are filled wait lists are started, email instructor. Except for modular courses and 308 & 310, the 1st class is orientation & stdts do not need to dress for activity.

Due to capacity limits the department cannot guarantee acceptance in any ECE courses even for ECE majors. When necessary, enrollment priority for students registering on schedule will be given to: 1) EE & CMPE majors, ECE graduate students & AMEP program students; 2) students admitted to another engineering major or PhD minor. Evening exams may be scheduled for all courses.

Engage Children in Sci-Lead	2	LEC	001	05:30 P	07:00 P	W	BIOCHEM 1116	Ledin,Dorothea A.						Students must commit to 25 hours of service over the course of the semester. This includes leading at least 8 sessions of an hour-long, weekly After School Science Club, plus time preparing for club, coordinating your plans with after-school staff, and transportation time. You can expect to spend 2-3 hours/week total on these activities.
Introduction to Scientific Thinking	3	LEC	002	09:30 A	10:45 A	TR	VAN VLECK B223	Jenkins,Kristin P						This course will discuss a broad range of topics centered around service and outreach. Students are expected to attend events outside of class, including a more specific exploration of service with a mentor with whom students will assist and/or shadow in the community.

Department home page (www.econ.wisc.edu) contains information about the wait list policy. Placement on the wait list does not guarantee enrollment in the class. It is always recommended that you enroll for a full class schedule in case your initial selections are not available. When students enroll but do not meet the prerequisites for a class, they will be asked to drop the class. All undergraduate courses crosslisted with School of Business departments are restricted to enrollment only by students majoring in Business until Thursday, April 23rd at 9:00 a.m. unless otherwise noted.

MUSIC-PERFORMANCE

MUS PERF (664) School of Music, 3561 Humanities, (608)263-1900

Read all prerequisites, enrollment requirements, class notes, & subject notes published in Class Search. Also see www.music.wisc.edu for more information.

Mus Perf courses are generally filled by music majors. The School of Music offers private music lessons (not for university credit & with separate costs) for non-music majors through the Community Music Lessons program at 263-1923. Class piano 101-104 and fundamentals courses are open to music majors only. Private lessons at 200 level & above require add'l weekly master classes; contact instructor for details.

31908		LEC	001	01:00 P	02:15 P	TR	BIRGE 145	Keller,Richard C			5/15/14	12:25 P		The global expansion of infectious diseases and increasing health disparities between industrialized and developing countries have been

among the major concerns in international health circles for at least two decades. Yet an increasing awareness of the links between these problems and the global environment has emerged among public health professionals and caregivers only in the past few years. This course aims at expanding awareness of the intersections of major international health problems and a crisis of the global environment by outlining both contemporary and historical dimensions of this juncture to beginning undergraduates through a truly interdisciplinary exposition. The course will integrate faculty experts from a range of departments to present a survey of the principal biological, geographical, social, and cultural aspects of health and the global environment.

Students will explore prominent theoretical approaches to public health ethics and will engage with several ethical tensions. Issues discussed include: the use of coercive or intrusive public health interventions that restrict individual freedom, infringe upon individual privacy, and/or invite individual harm (or risks of harm); the justification of paternalistic measures in societies or sub-populations that seemingly indulge in pleasurable yet unhealthy behaviors; the extent to which societies should hold individuals responsible for their health conditions; the need to choose between the identifiable victims we can save with expensive measures here and now and the more numerous unidentifiable victims we could save in the future with the same monetary investment; the trade-offs between maximizing aggregate health benefits and addressing the special needs of vulnerable social sub-groups and individuals; climate change and intergenerational justice; ethical issues in international pharmaceutical research; and the health-equity implications of prominent social determinants of health. Crosslisted with Philosophy
